Czech Nature Energy and ILIOTEC International Co-operation

Pilsen – On 3rd November 2008 the representatives of Czech Nature Energy a.s. and ILIOTEC International GmbH companies signed a contract concerning co-operation in the area of development and construction of photovoltaic power stations in the Czech Republic and Slovak Republic. Mr. Petr Maule, chairman of the board of Czech Nature Energy comments: “We will make use of our knowledge of the Czech environment, national laws and tax know-how to achieve our goal to become together with ILIOTEC one of the biggest companies operating on Czech market, bringing to our customers highest level of quality and outstanding service.”

The vice-chairman of the board Mr. Josef Květoň adds: “To be able to offer to our customers such level of service, which is standard in the EU in this area, we have started to build up a service network on territorial basis which will cover the area of the Czech Republic and which will ensure timely availability in every case.” “The signature of a contract combining the complementary strengths of both companies will ensure now as well as in the future fast extension of our business activities in the Czech Republic. Finding a trusted and suitable partner was the solution of choice for us”, told us the Managing Director of ILIOTEC International GmbH, Dr. Thomas Reindl.

Czech Nature Energy a.s. is a relatively young company founded in 2007 with the aim to build and operate alternative energy systems using renewable sources, with the specialization in the area of development and application of photovoltaic systems, including preparatory project work. The company also provides professional scientific and energetic consultancy services in this area. For new projects, it also handles all the administration procedures, which are essential throughout the whole life-time of the PV installation. Czech Nature Energy has its own team of experienced co-workers, including external cooperation with the top scientific workplaces.

ILIOTEC International GmbH is a German systems integration company specialized in development, construction and operation of turnkey solar power plants. Together with its mother company, ILIOTEC Solar GmbH, it has more than 10 years experience in planning, installation and maintenance of photovoltaic systems both in Germany and across Europe. Thanks to its strong focus on quality and service, ILIOTEC became a market leader known for high-yielding PV systems. ILIOTEC is certified by “TÜV Rheinland”, the highest quality level in the PV industry. Beyond photovoltaics, ILIOTEC has been awarded with numerous national and international prizes for its outstanding growth and its entrepreneurship. Further information on: www.iliotec.com
